GIRLS OF THE BIG 10

The Big 10 may have gained a school, but it hasn't lost its reputation for attracting some of the hottest coeds on earth. So what if the powerhouse conference lacks mathematical accuracy if its multiplication of cute chicks adds up to total sexiness? Use the following 54-page study period to check our calculation of collegiate beauty.

ALESSANDRA

MAJOR: BUSINESS

This native Brazilian is not much of a snow enthusiast. "In fact, I dislike everything about winter!" During the cold Iowa months she spends as much time as possible inside—exercising, reading, dancing or baking.

BROOKE EVERETT

MAJORS: ANTHROPOLOGY/SPANISH

CATHERINE DEVRIES

MAJOR: PSYCHOLOGY

The scoop on this senior is that she enjoys studying so much the only sure-fire way to lure her away from her books is with a hot fudge sundae. [LH]

KALIE TAYLOR

MAJOR: ELEMENTARY ED

What grammar school boy wouldn't want to be assigned to Kalie's class? And when school's out her little changes can watch her head home on a chopper. How cool is that? [KMT]

Y Is it possible to have Andrea Lowell (below left) team up with Havana Ulrich (below center) or Havana with Heather Christensen (below right) in the next *Girlfriends*? All three are awesome, and it's difficult to pick just one! ...N.R. The combination sounds delicious. Any other pairings that get readers' mouths watering?

Y Melissa Rigby is by far the most beautiful model you've had in some time—and that takes some doing, as all the girls in nearly every edition are beautiful. To say she's gorgeous and sexy is an understatement. Please feature more photos of her in future issues. ...J.C.

Y I must congratulate you on putting together *Hot Shots*. But what put the "hot" in *Hot Shots* was the reprise of Jarmo Pohjanen's team-up of Susie Lin and Hiroki Oshima. Either one of them could be the picture next to the definition of heat, but when you put the two of them together, it's a wonder the paper doesn't kindle! Here's looking forward to many returns of these two ladies—by themselves and together. ...J.R.D.

Y In every aspect, *Natural Beauties* was a truly phenomenal issue, and I was particularly pleased with Heidi Rhodes. Her unquestionable beauty is a welcome addition to *Special Editions*, and her pictorial was simply elegant. I'm hopeful that this is just the first of many appearances. ...J.E.D.

Savor Heidi's sophomore appearance on page 24 of this issue.

Y I've enjoyed SEs for many years, but with all my experience, nothing prepared me for *Hot Shots*. It's the sexiest issue yet—each woman is as gorgeous as the next. Except for your failure to include more photos of Sara Alvarado, I would say *Hot Shots* is perfect. ...P.H.

Since we always strive for perfection, here's one more sultry shot of the lovely Ms. Alvarado for your viewing pleasure.

Y I spent the better part of my time looking at *Natural Beauties* with my jaw on the floor. If anyone ever needed proof that there is a God, then they need look no further than this. Particular attention to detail must have been taken while creating the genetic template for Abby Rand, whose all too brief appearance made it very difficult for me to turn the page. She looks better in a tie than anyone else possibly could. Somebody would do well to make this girl a Playmate as soon as possible, but regardless, let's see more of her! ...K.R.T.

... BO · SEXY · SECONDS ... **SUNISA KIM**

Do you consider yourself to be an exhibitionist? *Believe it or not, I'm a relatively shy and conservative person. But Playboy is very classy, and becoming a part of it has been my ultimate fantasy come true. Is good sex a top priority in a relationship? Most definitely! Good sex is very important in a relationship. Being able to demonstrate love physically is worth just as much as saying "I love you."* Would you teach a bad lover how to be a good one, or would you just give up on him? *I would teach him to be a better lover if I were really into him. Before I knew his limitations. But if he's a really slow learner, he needs to go. How important is a first kiss? Very, very important! A good kiss should have soft caressing tongue action, with tongue tips touching.* Are there advantages to being considered beautiful? *The perks are getting hooked up. For instance, not having to wait in lines at the clubs, and getting into the VIP section at concerts and parties. What about the mis-*

conceptions? People tend to think all beautiful women are arrogant and self-centered, and that can be intimidating to some people because they feel like they can't approach them.
